# The MERLIN LEGEND
# Direct Station Selector (DSS)
## Console

The flexible DSS that can be connected to the **MLX-20L**® or **MLX-28D**® digital terminal to enhance its capabilities and help you get the most from your **MERLIN LEGEND**® System.

- **50 DSS Buttons** let you program up to 150 numbers — internal extension or calling group numbers, or dial-out or pool access codes — into the system, for one-touch dialing and call transfer.

- **3 Fixed Page Buttons** allow you to access three different sets of programmed numbers, each set with up to 50 numbers.

- **Messaging** allows you to send/remove or leave a message on a coworker's telephone. Messaging is accessed through the **MERLIN LEGEND MLX-20L** or **MLX-28DP** terminal.

- **Message Status** lets you switch each DSS button light from telephone use to Message Status mode, to see which phones have message lights on/messages waiting.

- **Additional Fixed Buttons** are reserved for future uses/capabilities.

- **DSS Designation Cards** are used for labeling the extensions and features assigned to each button.

To learn more about the **MERLIN LEGEND DSS**, talk to your Lucent Technologies representative or Lucent Technologies Authorized Dealer or Sales Agent. Or, visit our Web site at [**www.lucent.com/enterprise**].
